Please review this notice carefully.

### **A. OUR COMMITMENT TO YOUR PRIVACY**

Our practice is dedicated to maintaining the privacy of your individually identifiable health information (IIHI). In conducting our business, we will create records regarding you and the treatment and services we provide to you. We are required by law to maintain the confidentiality of health information that identifies you. We also are required by law to provide you with this notice of our legal duties and the privacy practices that we maintain in our practice concerning your IIHI. We realize that these laws are complicated, but we must provide you with the following important information:

- How we may use and disclose your IIHI
- Your privacy rights in your IIHI
- Our obligations concerning the use and disclosure of your IIHI

The terms of this notice apply to all records containing your IIHI that are created or retained by our practice. We reserve the right to revise or amend this Notice of Privacy Practices. Any revision or amendment to this notice will be effective for all of your records that our practice has created or maintained in the past, and for any of your records that we may create or maintain in the future. Our practice will post a copy of our current Notice in our office in a visible location at all times. And you may request a copy of our most current Notice at any time.

1. **Treatment:** Our practice may use your IIHI to treat your child. For example, we may ask you to have laboratory tests (such as blood and urine tests) on your child, and we may use the results to help us reach a diagnosis. We might use your child's IIHI in order to write a prescription for your child, or we might disclose your child's IIHI to a pharmacy when we order a prescription for them. Many of the people who work for our practice-including, but not limited to, our doctors and medical assistants-may use or disclose your child's IIHI in order to treat your child or to assist others in their treatment. Additionally, we may disclose your child's IIHI to others who may assist in your child's care, such as your spouse, children or parents. Finally, we may also disclose your child's IIHI to other health care providers for purposes related to your child's treatment.
2. **Payment:** Our practice may use and disclose your child's IIHI in order to bill and collect payment for the services and items your child may receive from us. For example, we may contact your child's health insurer to certify that you are eligible for benefits (and for what range of benefits), and we may provide your insurer with details regarding your child's treatment to determine if your insurer will cover, or pay for, your treatment. We also may use and disclose your child's IIHI to obtain payment from third parties that may be responsible for such costs, such as family members. Also, we may use your child's IIHI to bill you directly for services and items. We may disclose your child's IIHI to other health care providers and entities to assist in their billing and collection efforts.
3. **Health Care Operations:** Our practice may use and disclose your child's IIHI to operate our business. As examples of the ways in which we may use and disclose your child's information for our operations, our practice may use your IIHI to evaluate the quality of care you received from us, or to conduct cost-management and business planning activities for our practice. We may disclose your child's IIHI to other health care providers and entities to assist in their health care operations.
4. **Appointment Reminders:** Our practice may use and disclose your child's IIHI to contact you and remind you of an appointment.
5. **Treatment Options:** Our practice may use and disclose your child's IIHI to inform you of potential treatment options or alternatives.
6. **Health-Related Services:** Our practice may use and disclose your child's IIHI to inform you of health-related benefits or services that may be of interest to you.
7. **Release of Information to Family/Friends:** Our practice may release your child's IIHI to a friend or family member that is involved in their care, or who assists in taking care of your child. For example, a parent or guardian may ask that a babysitter take their child to the pediatrician's office for treatment of a cold. In this example, the babysitter may have access to this child's medical information.
8. **Disclosures Required by Law:** Our practice will use and disclose your child's IIHI when we are required to do so by federal, state, or local law.
